

WEBB CREEK

Kauaeranga Valley, Thames.

A very low volume waterfall tramping trip. Photos taken by Dan Clearwater from the two bridges above/below the described section.

Trip Report from Phil Beech.

"I did however do some exploration of Webb creek in the Kauaeranga valley. Ran out of time to do the entire creek but did enjoy the bit between the two bridges.

Took 60m of rope plus another 60m pull down cord, largest water fall 30 m but used most of the rope on occasions to do two drops in succession.

8 hours car to car."
